Definitions

Agency Non-enrollment Service Fees – Payment made to a GA, MGA, SGA, SGA2, FMO, RFMO, NFMO or AFMO for each individual who Agency or Subordinate Agency, Brokers or Agents enroll in a HealthSpring MA/MAPD/PDP Plan.

Agent-level Commissions – Compensation paid to an Independent Agent/Broker for each individual who Agency or Subordinate Agency, Brokers or Agents enroll in a HealthSpring MA/MAPD/PDP Plan.

Aggregator Field Marketing Organization (AFMO) – AFMO is an insurance agency that acts as an Aggregator that contracts with Independent Agent(s), General Agency (GA), Managing General Agency (MGA), Supervising General Agency (SGA or SGA2), Field Marketing Organization (FMO), Regional Field Marketing Organization (RFMO) and/or National Field Marketing Organization (NFMO) as defined by HealthSpring. AFMOs must possess all requisite permits, licenses and other approvals issued by the regulatory insurance agency(ies) of the applicable state(s) in which AFMO, NFMO, RFMO, FMO, SGA, SGA2, MGA or GA is appointed and in which HealthSpring operates.

AFMO must meet or exceed the HealthSpring engagement criteria and eligibility requirements. As an Aggregator the AFMO must have an ownership in a majority of their downline hierarchy, and meet all applicable state and federal laws, rules and regulations.

Assignment of Commissions (Dual Assignment) – An agreement which directs the payment of all current and future Agent-level commissions to an upline entity. Commissions must be distributed in accordance with HealthSpring policy and procedures and CMS guidelines, unless approved third-party agreements designate otherwise.

Field Marketing Organization (FMO) – FMO is an insurance agency that may also contract with an Independent Agent(s), General Agency (GA), Managing General Agency (MGA) and/or Supervising General Agency (SGA or SGA2) as defined by HealthSpring. FMOs must possess all requisite permits, licenses and other approvals issued by the regulatory insurance agency(ies) of the applicable state(s) in which FMO, SGA, MGA or GA is appointed and in which HealthSpring operates.

FMO must meet or exceed the HealthSpring engagement criteria and eligibility requirements, and meet all applicable state and federal laws, rules and regulations.

General Agency (GA) – GA is an insurance agency that may also contract with an Independent Agent(s), as defined by HealthSpring. GAs must possess all requisite permits, licenses and other approvals issued by the regulatory insurance agency(ies) of the applicable state(s) in which GA/Agent is appointed and in which HealthSpring operates.

GA must meet or exceed the HealthSpring engagement criteria and eligibility requirements, and meet all applicable state and federal laws, rules and regulations.

For agent/broker use only. Confidential, unpublished property of HealthSpring. Do not duplicate or distribute. Use and distribution limited solely to authorized personnel. HealthSpring products and services are provided exclusively by or through operating subsidiaries of Health Care Service Corporation, a Mutual Legal Reserve Company. © 2026 Health Care Service Corporation. All Rights Reserved.

Independent Agent/Broker – Nonemployee Agent/Broker who is either directly contracted with HealthSpring or is contracted with a GA, MGA, SGA, SGA2, FMO, RFMO or NFMO. Without prior authorization, HealthSpring directly contracted agents are prohibited from contracting with a GA, MGA, SGA, SGA2, FMO, RFMO or NFMO.

Initial Compensation – Compensation that is paid only when the beneficiary is a new enrollee to Medicare or to a MA/MAPD/PDP plan, as validated by the Centers for Medicare & Medicaid Services (CMS) compensation reports.

Managing General Agency (MGA) – MGA is an insurance agency that may also contract with an Independent Agent(s) and/or General Agency (GA), as defined by HealthSpring. MGAs must possess all requisite permits, licenses and other approvals issued by the regulatory insurance agency(ies) of the applicable state(s) in which MGA or GA is appointed and in which HealthSpring operates.

MGA must meet or exceed the HealthSpring engagement criteria and eligibility requirements, and meet all applicable state and federal laws, rules and regulations.

National Field Marketing Organization (NFMO) – NFMO is an insurance agency that may also contract with an Independent Agent(s), General Agency (GA), Managing General Agency (MGA) and/or Supervising General Agency (SGA or SGA2) as defined by HealthSpring. NFMOs must possess all requisite permits, licenses and other approvals issued by the regulatory insurance agency(ies) of the applicable state(s) in which NFMO, SGA, MGA or GA is appointed and in which HealthSpring operates.

NFMO must meet or exceed the HealthSpring engagement criteria and eligibility requirements, and meet all applicable state and federal laws, rules and regulations.

Regional Field Marketing Organization (RFMO) – RFMO is an insurance agency that may also contract with an Independent Agent(s), General Agency (GA), Managing General Agency (MGA) and/or Supervising General Agency (SGA or SGA2) as defined by HealthSpring. RFMOs must possess all requisite permits, licenses and other approvals issued by the regulatory insurance agency(ies) of the applicable state(s) in which RFMO, SGA, MGA or GA is appointed and in which HealthSpring operates.

RFMO must meet or exceed the HealthSpring engagement criteria and eligibility requirements, and meet all applicable state and federal laws, rules and regulations.

Replacement/Renewal Compensation – Compensation that is paid when the beneficiary is not new to Medicare or to a MA/MAPD/PDP plan, as validated by the CMS compensation reports.

Supervising General Agency (SGA or SGA2) – SGA is an insurance agency that may also contract with an Independent Agent(s), General Agency (GA) and/or Managing General Agency (MGA), as defined by HealthSpring. SGA/SGA2s must possess all requisite permits, licenses and other approvals issued by the regulatory insurance agency(ies) of the applicable state(s) in which SGA/SGA2, MGA or GA is appointed and in which HealthSpring operates.

SGA/SGA2 must meet or exceed the HealthSpring engagement criteria and eligibility requirements, and meet all applicable state and federal laws, rules and regulations.

HealthSpring MA/MAPD/PDP Compensation Overview

New Application Payments

Per CMS guidelines, HealthSpring defines a compensation year as January through December (a normal calendar year). HealthSpring is required to pay Agents at compensation rates within ranges filed and attested annually with CMS. More-specific compensation information can be found within this document in the section entitled "2027 HealthSpring Compensation Rate Schedule."

Enrollments must be a result of the direct contact between the Agent and the individual prospect. HealthSpring will pay a commission for each individual whom Agency or Subordinate Agency or Agents enroll in a HealthSpring MA/MAPD/PDP plan. Agent-level commissions for new applications are paid per the current commission schedule set forth annually (see section entitled "2027 HealthSpring Compensation Rate Schedule"). Payments will be made during the normal commission payment schedule as set forth by HealthSpring policy unless otherwise agreed between the parties.

To be eligible to receive Agent-level commission payments from HealthSpring the writing Agent must be properly contracted, licensed and appointed (based on each state's regulations) prior to making a sale. Writing Agents are also required to complete annual training/certification requirements prior to making a sale, per CMS. If the writing Agent is noncompliant, payment will not be administered to any party, including the hierarchy, for the applicable enrollment.

Effective January 1, 2027 HealthSpring will pay for resident state appointment fees. **Agents are responsible for the cost of their own non-resident state appointment fees. These fees will be deducted directly from Agent-level commissions**. This applies to all new appointments as well as renewal appointments to maintain active status in any given state. Agents should factor these costs into their business planning, as fees vary by state and are subject to change based on state regulatory requirements.

HealthSpring payments on new applications are made per the schedule set forth in the 2027 HealthSpring Compensation Rate Schedule and also located on Producer's University. In addition, payments are made based on the contracting and hierarchy in place at the time of sale. HealthSpring endeavors to process payments for new applications within two or three weeks of submission. Payment may be delayed if the Agent's correct HealthSpring writing ID is not included on the member's enrollment application or if required information is missing from the application.

The above requirements must be maintained for all subsequent renewal years for the Agent to continue receiving compensation (see section entitled "Existing Member Compensation – Prior Effectives" for more information).

HealthSpring identifies three potential compensation scenarios for new enrollments to HealthSpring.

1. **Initial Year, No Prior Plan** – A member identified by CMS via monthly CMS Compensation reporting to be in their Initial Compensation Year in a MA, MAPD, or PDP plan with no reported prior plan. These enrollments are eligible for a full, initial compensation rate payment (12 months).
2. **Initial Year, Prior Plan** – A member identified by CMS via monthly CMS Compensation reporting to be in their Initial Compensation year in a MA, MAPD, or PDP plan coming to HealthSpring from a like plan type or non-like plan. For example, a member ages into Medicare in March, enrolls with a different carrier, then moves out of the service area and subsequently enrolls with HealthSpring in September. These enrollments are eligible for payment at initial compensation rates. Agent-level commissions will be prorated based on how many months the member is anticipated to be enrolled in a HealthSpring plan during the compensation year. For example, an enrollment effective January 1 will receive the full, initial compensation rate (12 months) as the member is expected to be enrolled for the full compensation year; however, an enrollment effective April 1 will receive 9/12 of the initial compensation rate as the member is expected to be enrolled for nine months of the compensation year.
3. **Renewal Year Enrollment** – A member identified by CMS via monthly CMS Compensation reporting to be in a Renewal Compensation year. For example, a member coming from another carrier enrolls with HealthSpring during AEP for January 1, 2027 effective date. These members have been enrolled in a plan for at least one full compensation year and thus are only eligible for payment at renewal compensation rates. Agent-level commissions will be prorated based on how many months the member is anticipated to be enrolled in a HealthSpring plan during the compensation year. For example, an enrollment effective January 1 will receive the full renewal compensation rate (12 months) as the member is expected to be enrolled for the full compensation year; however, an enrollment effective February 1 will receive 11/12 of the renewal compensation rate as the member is expected to be enrolled for 11 months of the compensation year.

MA/MAPD Initial Year Agent Commission Examples: Rates based on all markets except CT, DC, PA and NJ.

Enrollment Type	Effective Date	Prior Plan	First Payment	CMS Recon Payment	Total Paid
Initial Year	1/1/2027	NONE	$363.00	$362.00	$725.00
Initial Year	1/1/2027	PDP, PACE, COST	$363.00	$362.00	$725.00
Initial Year	4/1/2027	NONE	$272.25	$452.75	$725.00
Initial Year	4/1/2027	MA/MAPD, PDP, PACE, COST	$272.25	$271.50	$543.75
Initial Year	7/1/2027	NONE	$181.50	$543.50	$725.00
Initial Year	7/1/2027	MA/MAPD, PDP, PACE, COST	$181.50	$181.00	$362.50

PDP Initial Year Agent Commission Examples: Rates based on all markets for HealthSpring PDP Extra Plans only.

Enrollment Type	Effective Date	Prior Plan	First Payment	CMS Recon Payment	Total Paid
Initial Year	1/1/2027	NONE	$65.00	$65.00	$130.00
Initial Year	1/1/2027	MA/MAPD, PACE, COST	$65.00	$65.00	$130.00
Initial Year	4/1/2027	NONE	$48.75	$81.25	$130.00
Initial Year	4/1/2027	MA/MAPD, PDP, PACE, COST	$48.75	$48.75	$97.50
Initial Year	7/1/2027	NONE	$32.50	$97.50	$130.00
Initial Year	7/1/2027	MA/MAPD, PDP, PACE, COST	$32.50	$32.50	$65.00

Examples for illustrative purposes only. See the 2027 Compensation Rate Schedule for full MA/MAPD and PDP rate details, as well as a complete list of any 2027 non-commissionable plans.

Due to the timing of the monthly CMS Compensation Reporting, all enrollments will be paid at Renewal compensation rates. Agent level renewal compensation rates will be prorated based on the number of months the member is anticipated to be enrolled with HealthSpring during the compensation year as stated in the section above. On receipt of the monthly CMS Compensation Report, HealthSpring will perform an audit and compensate Agents for any additional payments owed on initial-year members. This payment is called the CMS Reconciliation (True Up) payment and it is made on a monthly basis. **It may take six to eight weeks for Agents to receive CMS Reconciliation (True Up payments after an application has been submitted.**

Compensation Recovery – Chargebacks

Upon the termination of a member's continuous enrollment with HealthSpring, all payments (including Agent-level commissions) made for 2027 effective applications will be subject to either a full or prorated chargeback based on the following.

A full chargeback will be recovered if:

- The member makes any plan change within the first three months of enrollment, including disenrollment, that does not qualify for a rapid disenrollment exception as outlined by CMS. For example, the member becomes LIS or dual (Medicare and Medicaid) eligible and qualifies for another plan based on special needs.
- The member enrolls for October 1, November 1 or December 1 and disenrolls from the plan (unrelated to AEP).
- The member terminates prior to enrollment for any reason (cancellation).

A prorated chargeback will be recovered if:

- The member makes any plan change within the first three months of enrollment, including disenrollment, that **does** qualify for a rapid disenrollment exception as outlined by CMS. For example, the member becomes LIS or dual (Medicare and Medicaid) eligible and qualifies for another plan based on special needs.
- The member enrolls in a new plan with a new Agent (external) after the rapid disenrollment period; the prior Agent will no longer continue to receive compensation and would incur a prorated chargeback for any unearned months.
- The member terminates after the rapid disenrollment period but prior to December 31 in the 2027 calendar year. This includes scenarios where a member might move from one carrier to another, or when a member moves from one plan to another within the same carrier.

Note: In the event an Agent is paid at the full, initial compensation rate for an enrollment with an effective date after January 1, HealthSpring would be required to chargeback compensation previously paid for all months that member is not on a HealthSpring plan. For example, if a member enrolls May 1 and disenrolls August 31, HealthSpring will chargeback compensation not only for September 1 through December 31, but also for January 1 through April 30, or the eight months that the member was not enrolled in a HealthSpring plan.

Retroactive Chargebacks

If HealthSpring is notified of a retroactive member disenrollment, full or prorated chargebacks will be issued accordingly, depending on the disenrollment scenario as outlined in the previous section. Retroactive chargebacks will also be issued in the event a member's disenrollment was not processed in a timely manner by the Commission Department. For example, a member disenrolls December 31, 2026 but the Commission Department is not notified of the change in enrollment status until after the 2027 plan year has already begun, resulting in the payment of 2027 renewals. In this scenario, all compensation paid for the 2027 plan year would be charged back.

All Rights Reserved.

Existing Member Compensation – Prior Effectives

- All active member enrollments from prior effective years will begin the next renewal cycle in January 2027. Existing member compensation will be paid based on the contracting and hierarchy in place at the time of sale. Agent-level renewal compensation for existing members will be paid at 2027 Fair Market Value (FMV). The FMV for 2027 renewals can be found in the Compensation Rate Schedule section of this document.
- To be eligible to receive existing member compensation from HealthSpring, the Agent must either be actively contracted or in a servicing status with HealthSpring. Actively contracted Agents must be properly licensed and appointed (based on each state's regulations). Agents in a servicing status must also be properly licensed; an active appointment is not required.
- In order to be eligible to remain active and receive existing member compensation, all Agents are required to complete the next year's training/certification prior to December 31 of the current plan year. For example, **2027 training/certification must be completed by December 31, 2026 to receive Agent-level compensation for existing members.** In the event an Agent is noncompliant (i.e., is not actively contracted or in a servicing status, not actively licensed and appointed (where applicable), and/or has not completed required training by Dec 31), all current and future compensation for existing members in their Book of Business (BOB) will be forfeited (i.e., a payment will not be received). All other compliant entities in the hierarchy may receive payment.
- Starting with Jan 2027 renewal payments an Agent may be eligible for future renewal compensation in the event the Agent resolves outstanding current year renewal validation issues, as long as the New Application payment was successfully processed (i.e. Agent was qualified for the sale) and renewals were not withheld prior to the 2027 plan year.
- Existing member compensation for continuously enrolled MA/MAPD members will be paid monthly starting in January of the calendar year following the initial enrollment effective date providing all validation requirements are met (i.e., active HealthSpring contract or servicing status, license and appointment (where applicable), and completed certification). For example, compensation for existing members that have a March 1 effective date will be paid beginning in January of the following calendar year. Monthly compensation for existing members will be based on 1/12th of the renewal year rate and will continue to be paid as long as the member remains continuously enrolled in the current MA/MAPD plan and the Agent continues to meet validation requirements. Compensation will cease upon termination of a member's continuous enrollment.

For agent/broker use only. Confidential, unpublished property of HealthSpring. Do not duplicate or distribute. Use and distribution limited solely to authorized personnel. HealthSpring products and services are provided exclusively by or through operating subsidiaries of Health Care Service Corporation, a Mutual Legal Reserve Company. © 2026 Health Care Service Corporation. All Rights Reserved.

- Existing member compensation for continuously enrolled stand-alone PDP members will be paid on an up-front, lump-sum basis in January following the initial enrollment effective date. All renewal validation requirements must be met for payment to be received. Upon termination of a PDP member's continuous enrollment, all compensation paid in 2027 will be subject to a full or prorated chargeback. For example, a prior effective year member with a June 30, 2027 termination date will result in a chargeback of 6/12 of the January renewal payment, keeping the Agent whole for the six months (January through June) in which the member was enrolled in the plan.
- When a member enrolls in a new "like plan" with a new Agent (external), it will result in a change of the servicing Agent, therefore considered a commissionable event. **If a plan change is performed by the HealthSpring Plan Change Unit, an internal HealthSpring Agent, or online at HealthSpring.com the current AOR will be retained unless the Agent is currently in Terminated or Servicing status.**
- When an Agent/Principal retires, or no longer wants to actively market and sell, they may elect to move into a servicing status if qualified. Otherwise they will become inactive and will no longer qualify to receive compensation of any type.
- In the event an Agent moves to a HealthSpring employee contract, all future agent-level compensation for existing members will be forfeited for their BOB written as an Independent Agent

Reasons HealthSpring will Not Compensate an Agent:

- When an application is rejected, denied, cancelled or voided.
- When an application is incomplete or in RFI status and the request for additional information is not met within the required time frame.
- When an Agent is in terminated or suspended status.
- When an Agent is deemed unqualified due to lack of contract, license, appointment and/or certification.
- When fraud and/or intentional non-compliant activities are committed.
- When HealthSpring determines and communicates a plan to be non-commissionable.

Compensation Schedule Guidelines

Below is the 2027 HealthSpring Compensation Rate Schedule. All compensation for 2027 effective applications will be paid at the 2027 compensation rates indicated in the tables below. Agent-level compensation for all eligible renewing members will also be paid based on the 2027 compensation rates, regardless of original effective year.

While HealthSpring intends to pay all Agents the highest compensation rate within the ranges filed with CMS (see Note to Compensation Rate Schedule below), HealthSpring reserves the right to change an Agent's specific compensation rate to an amount within each range for any reason and at any time, at our sole discretion. HealthSpring will make best efforts to advise an Agent of any change to their compensation rate in advance of the effective date of such a change.

Per CMS, Initial Compensation is paid only when the beneficiary is a new enrollee to Medicare or MA/MAPD/PDP, as validated by the CMS Compensation Reports. All compensation will be paid as renewal compensation unless CMS Compensation Reports indicate the compensation should be Initial Compensation. In addition, compensation will not be received until CMS approves the member's enrollment.

All Agents will be compensated by HealthSpring at the rates indicated unless an alternative MIPPA-compliant compensation plan is submitted with the documented approval from HealthSpring. For enrollments with effective dates in the 2027 calendar year, the following compensation schedule will be in effect.

For agent/broker use only. Confidential, unpublished property of HealthSpring. Do not duplicate or distribute. Use and distribution limited solely to authorized personnel. Payments

Per CMS Compensation Guidance, HealthSpring is required to compensate Independent Agents for all valid 2027 commissionable transactions, including those for 2027 effective enrollments and all renewing members, within the 2027 Plan Year (January 1, 2027 through December 31, 2027). HealthSpring cannot compensate an Independent Agent prior to January 1, 2027 for any 2027 enrollment and must complete compensation for all 2027 eligible enrollments by December 31, 2027.

HealthSpring will only release payment for new 2027 effective applications written during AEP to Agents who are actively contracted with HealthSpring at the time of payment. Additional requirements for new application payments are outlined in the New Application Payments section of this document. In the event an Agent is not actively contracted with HealthSpring at the time of payment compensation will be forfeited (i.e., a payment will not be received).

After January 1, 2027, HealthSpring will begin to compensate all Agents on a weekly basis for all 2027 effective date applications submitted that result in HealthSpring members.
After January 1, 2027, HealthSpring will begin to compensate all Agents on a monthly basis for CMS Reconciliation payments on enrollments eligible to receive full or prorated initial compensation.

Regardless of original effective date, all active member enrollments from prior effective years (if applicable) will begin the next renewal cycle in January 2027. All Agent-level renewal compensation will be paid at current compensation plan year Fair Market Value (FMV). FMV for 2027 renewals can be found in the Compensation Rate Schedule above.
